

PRINCE2® Foundation Candidate Syllabus

July 2017

Introduction

The PRINCE2 Foundation qualification is intended for project managers and aspiring project managers. It is also relevant to other key staff involved in the design, development and delivery of projects, including: project board members (e.g. senior responsible owners), team managers (e.g. product delivery managers), project assurance (e.g. business change analysts), project support (e.g. Project and Programme Office personnel), and operational line managers/staff.

The PRINCE2 Foundation examination is intended to assess whether a candidate can recall and understand the PRINCE2 project management method (as described in the syllabus below). The PRINCE2 Foundation qualification is a prerequisite for the PRINCE2 Practitioner exam, which assesses the ability to apply understanding of the PRINCE2 project management method in context.
